

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

noon sessions on Tuesday, Thursday and Friday. Receptions will be given on Tuesday afternoon by the Lord Mayor and Lady Mayoress, at the Mansion House; on Tuesday evening by Sir James Purves Stewart and Lady Stewart; on Wednesday afternoon by the president of the Royal College of Surgeons of England, at the college; and on Thursday evening by Mr. and Mrs. H. J. Waring. On Wednesday afternoon visits to Barbers' Hall and Apothecaries' Hall have been arranged, and in the evening there will be a *conversazione* at the Wellcome Historical Medical Museum, where a special loan exhibition will be on view. On Friday afternoon Sir D'Arcy Power will give a historical address at St. Bartholomew's Hospital, and in the evening a banquet will be held at the Hotel Cecil. On Saturday Hampton Court Palace will be visited. Those wishing to become members of the congress are asked to communicate as early as possible with the general secretary, Dr. J. D. Rolleston, 21, Alexandra Mansions, King's Road, S.W.3, London.

#### RESEARCH FELLOWSHIPS ADMINISTERED THROUGH THE DIVISION OF BIOLOGY AND AGRICULTURE OF THE NA- TIONAL RESEARCH COUNCIL

INASMUCH as the announcement of medical fellowships to be administered by the National Research Council has called forth many inquiries regarding fellowships in biology and agriculture, it seems desirable to set forth briefly the situation in this division. Notwithstanding the many worthy applications which have reached it, the Division of Biology and Agriculture has not yet been successful in securing a series of general fellowships comparable to those provided by the Rockefeller Foundation through the Divisions of Physics and Chemistry, or those financed by the Rockefeller Foundation and the General Education Board for the Division of Medicine. The Division of Biology and Agriculture does have administered through it directly or indirectly, however, a series of special fellowships, as follows:

The Rosenwald fellowship with a stipend of \$2,000 a year for three years, donated through the General Education Board to Dr. E. E. Just for his studies on the physiology of development.

Two Sigma Xi fellowships at \$1,600 each, supported by the membership of the Sigma Xi Society. The present policy is to award these in subjects other than physics and chemistry and the medical sciences. The chairman of this division acts *ex officio* with the fellowship committee of Sigma Xi in their administration.

Two Crop Protection Institute Sulphur fellowships (beginning in 1922) at not to exceed \$2,500 each, donated by three sulphur companies; an additional \$2,500 is to be used in organization work. One of these fellowships is to be assigned to a phytopathologist, the other to an entomologist.

Eight sulphur fellowships (beginning in 1922) at approximately \$1,000 each for one year, with assurance of further support, donated by the Texas Gulf Sulphur Company (see SCIENCE, May 26). Two thousand dollars additional is provided for the traveling expenses of those concerned with the research.

M. F. GUYER, *Chairman*

COMMITTEE ON FELLOWSHIPS,  
DIVISION OF BIOLOGY AND AGRICULTURE

#### AMERICAN METEOROLOGICAL SOCIETY

THE American Meteorological Society will hold its first western meeting at Salt Lake City on June 22. Western members have arranged a program of varied interest, which will probably occupy all of June 22 and the morning of the 23d. Of particular interest will be the several papers on climatology in relation to agriculture and forestry to be presented on the morning of the 22d, and the symposium on "Forecasting Irrigation and Flood Waters," led by Dr. J. E. Church, Jr., director, Nevada Cooperative Snow Surveys, on the afternoon of the 22d. It seems probable that at this meeting a Pacific division of the society will be organized in affiliation with the Pacific Division of the American Association for the Advancement of Science.

The society held a highly successful meeting in Washington on April 26, the proceedings of which are being published in the *Bulletin of the American Meteorological Society*.

CHARLES F. BROOKS, *Secretary*  
CLARK UNIVERSITY,  
WORCESTER, MASS.
